

PROFESSIONAL EXPERIENCE

Sr. BI Analyst

February 2022-Present

Keurig Dr Pepper Inc

Technology used: Azure Data Warehouse, SQL, PowerBI, Tealium, and RedPoint DM

Communicated and delivered actionable PowerBI dashboards and reports for the leadership and business partners, enhancing data-driven decision-making.

Designed and developed pipelines for targeted customer audiences and data extracts, supporting effective email marketing campaigns and affiliate programs in Salesforce Marketing Cloud.

Coordinated documentation and standardization efforts for existing data extracts and dashboards, ensuring consistency and accuracy across platforms.

Created, optimized, and maintained bespoke recommendation systems based on purchase history and product affinity, tailored to meet specific business requirements.

Data Analyst

April 2018-February 2022

Desai Management Consulting, LLC

Technology used: Salesforce Marketing Cloud, Tealium, SQL, PowerBI, and RedPoint DM

Enhanced existing recommendation models, reducing processing time by 350% and adding 15 new selection features to improve recommendation accuracy.

Facilitated the transition from IBMDA website tagging to Tealium stack and engineered the corresponding data structure to support the migration.

Developed customer interaction flows in Tealium AudienceStream, integrating with Salesforce Marketing Cloud for targeted email campaigns.

Connected Tealium AudienceStream with Salesforce Marketing Cloud for real-time customer retention and re-engagement efforts.

Managed promotional and transactional audiences for multiple business units across US and Canada in Salesforce Marketing Cloud.
